**outdoor furniture**  
for the modern  
lollygagger

## Loll is furniture for the modern lollygagger.

At our headquarters in Northern Minnesota, we manufacture original premium products proudly crafted by 70 genuine humans. Quality is built into every product including material choices, design, manufacturing, an authentic warranty, and unparalleled customer service.

Guided by a vision to inspire people to appreciate the outdoors, we coalesce to make innovative and functional products that are beautifully crafted in the USA and distributed worldwide.

### product features:

- Recycled & Recyclable from reclaimed HDPE plastic milk jugs.
- Easy-to-clean, non-porous surfaces that will not harbor dirt or mold.
- Maintenance free.
- Weatherproof! We only use high grade materials that can be left outdoors year-round.
- Loll's unique, hidden fastening system allows component parts to be removed and replaced if damaged or vandalized.
- Withstands seaside and poolside environments.
- Made in the USA.

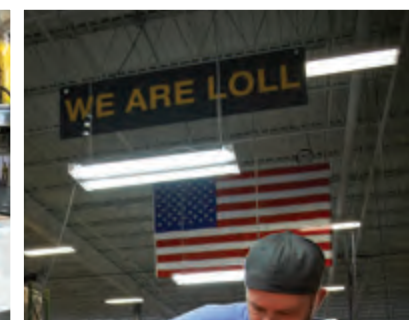

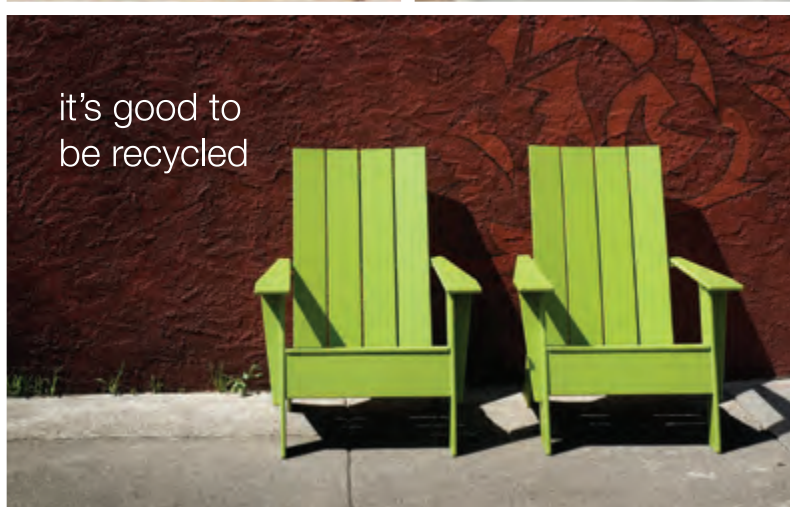

What does it mean to be a sustainable manufacturing company?

**Our mission statement:**

*Loll Designs uses thoughtful original designs and unique materials to create innovative, fun and high quality products proudly crafted in the USA. We enhance people, planet and company in everything we do. Loll is outdoor furniture for the Modern Lollygagger.*

When Loll first started prototyping an outdoor chair in 2003, her parent company was municipal skate park manufacturer TrueRide. When a skate park was produced there was always leftover material that was too small to be used for the large public use skate parks. Original Loll chairs were produced from these scraps of 5/8-inch thick high-density polyethylene. This thick HDPE sheet is made entirely with reclaimed milk jugs and is ideally suited for skate ramps and as it turns out, outdoor furniture too. After nearly 500 skate park projects TrueRide was sold in 2007. The Loll brand continued to build on this durable skate-proof material that was proven to require no maintenance and would hold up in all weather conditions.

Sustainable manufacturing is at the core of who we are as a company. During the production process, we generate waste, but more than 88 percent of the waste from Loll's manufacturing process is sent to a local recycling plant where it is recycled again. The remainder is incinerated to make electricity. Additionally, we redirect the heat that is generated from our CNC machines to keep our buildings warm during the winter months. We package our products in materials that all can be recycled afterwards and always striving towards zero waste has created recycling programs with everything we are able to including composting food waste. It's impossible not to leave an environmental footprint and we recognize that.

## adirondack collection

This collection combines classic Adirondack style lounge chairs with the comfort and modernity of the Loll brand. With the option of having a standard, tall, or rocking Adirondack chair, you'll be sure to find exactly what you need for your lounging needs.

**e.** Tall lounge Chairs & Tall Sofa with Cushions + Ottomans

## lollygagger collection

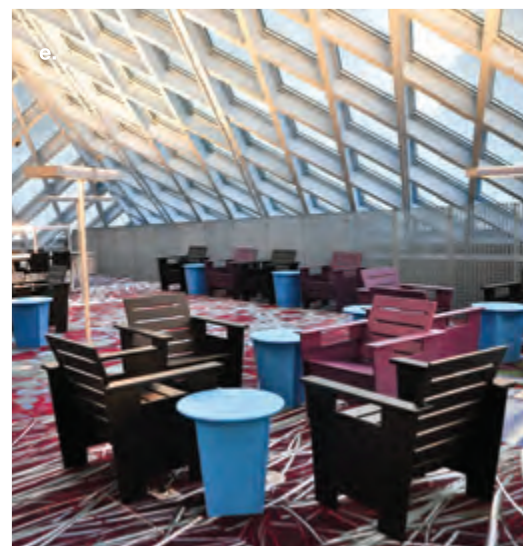

The Lollygagger collection means a lot to us. It's our first collection designed to be a cohesive family to create the modern outdoor lounge experience you've been looking for. This unique collection makes a statement about made in the USA quality, environmental responsibility, good design, and you. The Lollygagger Collection includes everything you need to really sit back and relax whether it be poolside in our chaise lounge or having a family dinner while the sun sets.

## go collection

The brainstorm behind the GO Collection, our first non Adirondack chair, was to make a club style outdoor chair with a taller seat height making it easier to get in and out of. It also needed to be anything but an Adirondack. If you are looking for something a jiff more contemporary, yet a bit less lounge, then the GO Collection will suit your space well.

## no. 9 collection

The No. 9 Collection was designed for Loll by Chicago-based Studio Murmur. This line has a slightly taller seat height yet reclines nicely to allow for superior lounging. The well-placed arms also provide some extra support when getting out. This collection is best enjoyed on a warm summer night with a cocktail in hand.

 d. No. 9 Rocking Chair | e. No. 9 Lounge Chair

## picket collection

Never mind the picket fence. Let the attention instead turn towards an inviting array of lounge style benches and chairs from our our Picket Collection. With perfectly aligned picket slats and no arms, these pieces not only look great but allow you to face any direction you choose.

## lounge collection

Looking to compare all of our lounge chairs to find the one that's perfect for you? Take a look at this collection to get a good comparison of the variety of chairs we have available to accommodate all of your lounging needs.

## rapson collection

Ralph Rapson was part of an exhilarating era in American Modernist architecture and design. Collaborating with his son, Toby Rapson, we are honored to replicate this midcentury architect's original designs using material and manufacturing not available when originally designed. Ralph liked to sketch furniture as much as buildings and often his furniture drawings were just filler for a room scene in a much larger context. Going through these impeccable furniture sketches we found many illustrations we thought would fit the aesthetic of Loll's modern outdoor furniture.

**salmela** collection

Duluth architect David Salmela seemed a natural fit to pair the designer's pragmatic design aesthetic with Loll's all-weather, no-maintenance, responsibly crafted outdoor furniture. Pure and geometric in nature, the Salmela Collection provokes a spatial simplicity with modest linear planes meeting to create sculptural and functional outdoor furniture.

## alfresco collection

This modern outdoor dining collection is the perfect setting for any outdoor meal or social gathering. With a variety of table lengths and seating options, there is no doubt you will find the the right dining set for your next family dinner or party. Spilt milk? No need to cry, this outdoor dining collection will clean up easily and requires no maintenance.

## planters

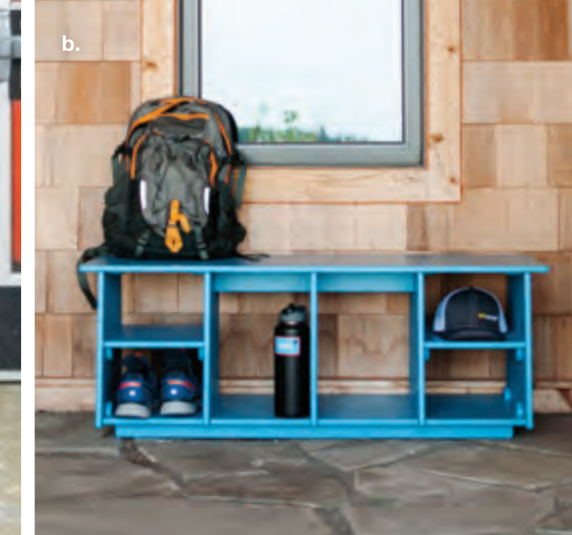

Great for delineating spaces or adding flora to any outdoor space, these planters are durable and able to survive even the toughest weather conditions. In all shapes and sizes, from 8 gallons to 60 gallons, these planters can take all kinds of greenery, or can double as an outdoor organizational container.

## storage

Loll's storage offers practical seating options and storage solutions for any thing from that pile of shoes and boots by your entryway to drippy umbrellas, the kiddo's toys, the pooch's chow, or some of your favorite cold drinks. Made with durable and easily cleanable recycled plastic, that winter salt and summer mud have no chance.

# loltrade.com

Loll Designs offers trade and contract programs for qualified professionals, including interior designers, architects and developers. We created **loltrade.com** as a comprehensive resource for our very extensive product offering, ranging from site furnishings to dining pieces and includes multiple Adirondack and lounge-style chairs.

At loltrade.com you will find...

- most up to date list of products available
- downloadable cut sheets
- downloadable 3D DWG files
- photos of featured commercial projects
- request color samples & fabric swatches
- list of sales reps in your area

## security options

### L Bracket Mounts

Loll "L" bracket security mounts are an integrated permanent mounting option. This add-on system includes pre-drilling of insert holes as well as the actual hardware. It may be used on all HD (Heavy Duty) Collection products and the Alfresco Collection.

*Note: not all Loll products are compatible with L brackets. View Loll's complete HD line at [www.lolltrade.com](http://www.lolltrade.com) or connect with a Loll representative for clarification.*

### Cable Mount System

Loll can work with you to provide holes in legs or some of our products to attach a security cable. This is a great option for light-duty securing of furniture, especially when you want to be able to have some movement of the piece.

*Note: Loll does not provide actual cable. We recommend nylon or vinyl coated "aircraft" cable in a 1/4" diameter. This material is available at most hardware stores.*
