AN ITALIAN STORY

Riccardo Rivoli è una storia di successo italiana, nata nel secolo scorso e proiettata da sempre al futuro globale. L'industrial design che offre idee e costruisce soluzioni, esclusivamente con materiali di pregio, per progettare bellezza e funzionalità d'arredo in tutto il mondo. Dal progetto al prodotto, con un'assistenza personale diretta ed esclusiva, senza mediazioni, per offrire l'autentico valore del design made in Italy, seguendo direttamente ogni elemento della filiera. Proprio come dovrebbe essere. Parlandosi di persona, guardandosi negli occhi, da designer a designer, da imprenditore a imprenditore. Perché Riccardo Rivoli è un industrial designer, un imprenditore e un marchio di design. Una realtà unica nel settore, con un'esperienza comprensiva in grado di dialogare in una lingua universale. Libera di creare su misura bellezza da vivere, realizzando qualsiasi tipo di esigenza, a catalogo o su richiesta esclusiva personalizzata. La libertà è componente essenziale della creatività e una produzione industriale guidata dalla libertà oggi è un'eccezione rara, che rende merito alla vera origine dell'industrial design, nato dall'intento di ideare indipendentemente soluzioni intelligenti, da produrre industrialmente, per risolvere necessità, innovare abitudini, proporre nuove possibilità. Perché quando una produzione è libera di seguire idee e desideri, anziché mercati e previsioni, vincono creatività, ascolto, entusiasmo, efficienza e professionalità. I valori che vedono nascere i grandi progetti, distintivi, dal respiro internazionale. I valori nei quali crede Riccardo Rivoli.

Riccardo Rivoli is an Italian success story. It all started in the last century and it has always been about a global future. Its industrial design offers ideas and builds solutions, using exclusively high-end materials to design beautiful and functional furniture across the globe. From the drawings to the end product, the company provides personal assistance, without intermediaries, to offer you authentic made-in-Italy design, following each stage of production directly. Just how it should be: talking in person, face to face, designer to designer, businessman to businessman. Riccardo Rivoli is an industrial designer, an entrepreneur and a designer brand. It is unique in its sector, backed by comprehensive experience and able to speak a universal language. Free to create made-to-measure beauty to be lived, Riccardo Rivoli responds to any kind of product need, whether directly from the catalogue or an exclusive, personalised request. Freedom is essential to creativity. Industrial production guided by such freedom is, today, a rarity and here a hat tip to the true origins of industrial design, which was thought up with the aim of independently designing smart solutions to be produced on an industrial scale, to solve problems, innovate routine, and open up new possibilities. When production is free to follow ideas and desires, instead of markets and forecasts, creativity wins, along with enthusiasm, efficiency, professionalism and an ability to listen. All of which are values that give rise to great, distinctive projects with an international flair. All of which are values Riccardo Rivoli believes in.

METALS & WOODS

All our seating structures are manufactured using first quality plywood.

Our wooden bases are made exclusively with solid wood.

We use certified timbers and low-impact environmental lacquering.

All woods are varnished open pore with a 5 gloss acrylic varnish.
